

Iles Tata

Data Scientist-Data Analyst

+213 560 674 199 — tatailes34@gmail.com — LinkedIn — Portfolio — GitHub

Summary — Data Scientist with a Master's degree in Statistics and Data Science, skilled in developing automated, data and AI solutions. Hands-on experience across telecom, startups, retail & merchandising, and logistics sectors.

Skills

Data Analysis Cleaning, EDA, Time Series, Dashboards
Visualization Power BI, Excel, Seaborn, Matplotlib
Data Science Stats, ML, DL, NLP, CV, MLOps

Programming Python, R, SQL, Jupyter, GitHub, Power Query
Web & Design WordPress, Canva, Photography, Illustrator
Other Finance, Teaching, Computers, Teamwork

Experience

Smollan

May 2025 – Present

Assistant IT & Operations Officer → Operations Coordinator

Full-time

- Manage IT and operations projects for FMCG clients (Pepsi, Unilever, Palmery)
- Automated reporting pipelines using Python, R, SQL, and Excel, including an integrated Power BI dashboard
- Applied unsupervised learning to optimize store planning and segmentation.
- Developed and deployed field and back-office Streamlit apps, and currently working on a full-stack HR platform using (FastAPI, PostgreSQL, Vue.js)
- Collaborate with clients and cross-functional teams to align data insights with operational strategy

Orbicore

Nov 2024 – May 2025

Data Analyst

Full-time

- Analyzed sales and market data for SAMSUNG's phones and home appliances
- Built Automated data workflows and reporting pipelines using Python and Power Query
- Built a prototype app to prevent data input errors, deployed later on
- Applied ML and NLP to predict prices and fix anomalies
- Created dashboards and reports with provided market insights and performance analysis using Excel, Power BI and R

Tidjetrans (Fleet Management Company)

Sept 2024 – Nov 2024

Data Analyst

Remote

- Evaluated driver behavior, truck activity, and trip performance data.
- Extracted and structured data using the Wialon SDK API.
- Developed a dashboard and web app to automate performance insights.

Internships

Ooredoo Algeria

Oct 2024 – Dec 2024

Machine Learning Intern

2 months

- Built an ML app to predict POS deployment success using geolocation and contextual data using clustering and classification models.
- Created two apps: one predicts success from map coordinates, another from text inputs (commune, size, etc.).

New Digital Way

Feb 2024 – May 2024

Data Science Intern (Master's PFE)

3 months

- Built an attendance system with anti-spoofing face recognition using Python, OpenCV, and one-shot learning.
- Developed a real-time dashboard for employee tracking and analytics.

Icosnet

Jul 2023 - Aug 2023

Computer Vision Intern

1 month

- Developed a face anti-spoofing detection module for secure recognition

Freelance

Independent Teacher & Data Science Instructor

Self-employed & With Code 213

Part-time

- Developed Python/R content, exercises, and solutions for Statistics/Python, R/Time Series,...
- Selected to teach 6-month data science programs from programming to advanced ML/DL

ML Projects & Competitions

Machine Learning Competitions & Datathons

Part-time

- Worked on NLP, classification, tweets, spam, recommendation, segmentation, fraud, churn, price prediction, credit risk, etc.
- Used Python, R, sklearn, Keras, BERT, RoBERTa, Tidymodels, NLTK
- Participated in team projects and ranked high in competitions (e.g., Kaggle and local)

Education

National Higher School of Statistics and Applied Economies ENSSEA

Master' Degree in Statistics and Data Science

State Engineer in Statistics

Minor: Commerce, Finance, Economics

Certifications & Achievements

- Python (Levels) & R Programming for Data Science Certifications — Sololearn
- Certificate of Recognition — Ranked among the top three in my specialty at ENSSEA
- Entrepreneurship Project Certificate — “EcoSort” at ENSSEA
- Web Development (WordPress) Certification — EHEC

Projects

Eratech AI – Startup Initiative Sept 2024

- Co-founded a startup offering AI-driven data analytics and consulting services
- Developed landing page using WordPress, HTML/CSS/JS, and Python
- Built a custom chatbot using LLaMA3, Flask, FastAPI, and Langchain

Smart Waste Management – ENSSEA Diploma Project Jun 2024

- Built a smart trash bin system using computer vision for waste detection/sorting
- Trained models with YOLO, EfficientNet, and TensorFlow
- Helped creating dashboards with Power BI for waste analysis and insights
- Contributed to marketing strategy and financial planning for project viability

Applied LLM & AI Agents Aug 2024

- Created custom chatbots using LLMs for tailored user experiences
- Developed multimodal AI voice assistant
- Used AI agents to automate research, web scraping, PDF querying, and reporting

Languages

- **Arabic** – Native
- **English** – Fluent (Professional working proficiency)
- **French** – Fluent (Professional working proficiency)

Other Experiences

Additional Activities

- I created Business Cards - Logos - websites & web apps for clients.
- Passionate about Computer Hardware and Software Troubleshooting where i helped fix computer-related issues for clients.
- Organized a charitable event, exhibiting exemplary leadership and organizational skills.
